**Asunto:** Re: Launching the seed ecological spectrum of alpine plants [SEC=OFFICIAL]  
**Datos adjuntos:** Venn Aciphylla Germ trials.xls; ATT00001.htm; Venn Aciphylla trials data sheet.xls; ATT00002.htm; VENN Alpine seed germination PhD chapters 2007 .pdf; ATT00003.htm; Venn and Morgan 2009 Aciphylla germ.pdf; ATT00004.htm; VENN Aus Vic alpine species Cool fridge data .xls; ATT00005.htm; VENN Aus Vic alpine species warm fridge data .xls; ATT00006.htm; logo-gmba-2016-blau210pixel.png; ATT00007.htm; Deakin logo 2019.png; ATT00008.htm

Thanks Eduardo - attached are some raw data files. In the A1 cell of the 'raw data' tab in each file, please read the comment/note that I left there which explains a bit about the where the seed was collected from and the germination conditions. Ive also included the chapters from my 2007 PhD thesis that this work related to... only Aciphylla glacials germination data has been published - also attached. This will probably be confusing, but just look at the tab labelled 'raw data' for each of the excel sheets. I think I set them up in a pretty standard way (but I was an inexperienced student back then!)

Please get back in touch if I can explain anything for you. I'll keep looking, incase I find some more datasets to include... there was another student working a few years earlier than this - and there might be some raw data in her thesis too...

I'm really pleased to be part of this great initiative! Thanks to Lydia for extending the invitation to me, and also let me know if I can help with anything else at this stage...or later one when things are getting finalised.

Cheers,  
Susanna
